To Whom It May Concern:

We are begging you to PLEASE \*\*\*NOT\*\*\* allow SCG&E to increase there rates again!!! Like many others in this area, we're at the breaking point. 1 check away from being on welfare it seems, these days. We've tried everything to lower our bill although we weren't planning on the HVAC unit having to be replaced but it was non-repairable so now here we are with a brand new HVAC unit, energy efficient bulbs through out the home & the bill has barely not been lowered by much. I feel like they just don't read the meters or increase too much for us to keep up!!! We need help. We cannot afford another increase. What we really need is for another company to be allowed to come in with better rates so that we have options. SCG&E has been given a license to steal & they need to be stopped. I understand some people in Charleston make so much money that they will not be hurt by these at all but there are still a lot of us here that are not making much money and struggling to survive. We need your help.

Thank you,

*Jo-Ann Breau*      *Paul Breau*
